

Our light rail is fast approaching. Are you Rail Ready?

Safety information for drivers.

→ Road rules stay the same. Always obey traffic lights and road signs.

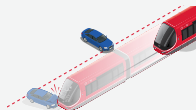

→ It is prohibited to drive along the tracks.

→ Ensure your truck/load does not come close to the overhead wire. It is live, 750 volts of power.

→ Queue across the tracks and only cross when the path ahead is clear.

→ LRVs take longer to come to a stop than road vehicles and cannot swerve to avoid contact.

→ LRVs are wider than the tracks. Stay well clear as they approach and leave them plenty of room.

→ In case of emergency, dial 000
